

- 30' dome, 81 high back seats in a unidirectional (theater type seating) pattern
- Series 2 Minolta Optical Lens Star Projector; the Star Projector sits on top of a lift that allows us to manually raise and lower the machine to the floor.
- Left, Middle and Right XF (cross fading) screens with three projectors in the Middle
- XF, 7 pan panorama
- XF, All Skies
- VCR, Laser Disk, CD integrated video system
- CTR Projection System
- LCD Projection System
- Four sound systems: Stereo, Surround, Tracking, Meteor Drop
- Sound Capabilites: 4 channel smpte time deck; dual cassette, CD, turntable, Reel to Reel 4 channel (antique)
- Over 100 special effects projectors
- JHE Automation with smpte time code. Through this system we have integrated the entire planetarium to the computer; also, we can switch back and forth between automation and manual operation.
