### Free to Good Home (Page)

Posted by admin on October 31, 2012

Looking for a good project name, only to find a similar domain is already registered? I am sitting on some astronomy-related URLs that I will give to a good home page.

[Contact me](#) if you're interested in transferring ownership to you. I prefer to surrender these domains to someone who will actively use them in astronomy education and public outreach. Please propose your idea of how it will be used and I'll weigh that against other requests, if I get multiple inquiries. No promises that I will relinquish ownership if I'm not comfortable with your intent.
