### Forum 7 on March 1

Posted by admin on February 3, 2014

I just think of it as the Forum, though I see it's now up to seven. It's the [7th Annual Collaborating for Education and Research Forum](#). Of special interest this year will be the 5-county [Project Lead The Way](#) initiative [in northern Indiana](#). I encourage STEM advocates and inquirers and people interested in our community to participate in Forum 7 on Saturday, March 1, from 8:30 a.m. to 2:30 p.m. And it's free. Thanks, Notre Dame, for hosting.

I encourage you to sign up soon. The organizers of Forum 7 say it best, so in addition to using their image, above, here is a cut-and-paste from <http://www.michianastem.org/Forum7...>

This year's Forum will include a discussion of the 5-county Project Lead The Way initiative. More detail soon.

All local K-12 administrators, K-12 teachers and the faculty, staff and students of local colleges and universities interested in Science, Technology, Engineering and Mathematics (STEM) education and research are invited to attend. The Forum is sponsored by the National Science Foundation and the University of Notre Dame to foster a collegial approach to STEM education, research, and--this year--commercialization in Michiana. Last year over 200 STEM professionals participated in the Forum. Registration is free. A free continental breakfast and lunch will be provided to all registrants.

Register using the form just below; please continue through until the submission verification screen.

A certificate for 5 State of Indiana Professional Growth Points will be awarded to each K-12 administrator and K-12 STEM teacher who attends the full Forum.

All of the summer professional development opportunities showcased at the Forum are offered at no cost to K-12 teachers (some carry stipends) and will offer State of Indiana Professional Growth Points to qualifying teachers.
